

# Molding Compounds Market to hit USD 15.2 Billion by 2029, grow at a CAGR of +5.5% | Exactitude Consultancy

*Molding Compounds Market Analysis Report by Product Type, by Application and by End Users: Global Opportunity Analysis and Industry Forecast 2029*

LUTON, BEDFORDSHIRE, UNITED KINGDOM, November 23, 2023 /EINPresswire.com/ -- "Exactitude Consultancy That Adds Flavour To Your Success"

The Global [Molding Compounds](#) Market Size, Scope, and Forecast 2023-

2029 report has been added to the Market research collection of Exactitude Consultancy reports. Industry experts and researchers have offered an authoritative and concise analysis of the Molding Compounds Market with respect to various aspects such as growth factors, challenges, restraints, developments, and opportunities for growth. This report provides a pin-point analysis

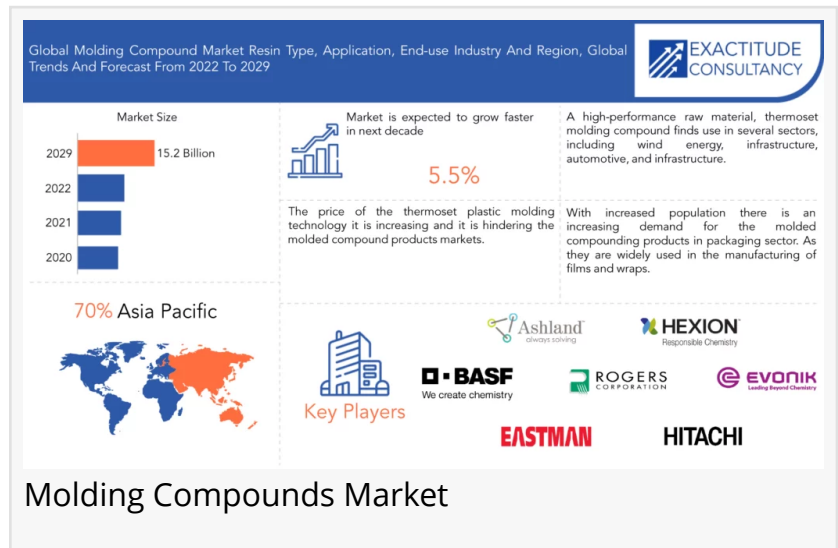

“

Expanding market demand for molding compounds, influenced by their versatility in creating intricate shapes for various industries, including automotive and electronics”

*Exactitude Consultancy*

of changing dynamics and emerging trends in the Molding Compounds Market. Additionally, it provides a futuristic perspective on various factors that are likely to fuel the growth of the Worldwide Molding Compounds Market in the coming years.

The global molding compounds market is designed to grow at 5.5 % CAGR from 2023 to 2029. It is expected to reach above USD 15.2 Billion by 2029 from USD 11.9 Billion in 2022.

Some of the key players profiled in the study are Ashland Global Holding INC., BASF, Eastman chemical company, Evonik Industries, Hexion INC., Huntsman corporation, Kolon industries INC., Kyocera chemical corporation, Plastic engineering company (Plenco), Rogers Corporation, Hitachi Chemical Co. and other Prominent players.

#### Recent Developments:

February 2023 – Plastic Molding Compounds market is providing a report to classify important growth factors, and to make a huge impact near the future with Sumitomo Bakelite, Panasonic, Chang Chun Group.

February 2023 – A leading engineered material company core molding technologies announces its specialization in molded structural products, and announced that it would issue its fiscal year 2022 fourth quarter and year-end results on Tuesday, March 14, 2023, before the market opening. The company primarily operates in the building materials, utilities, transportation, and power sports industries in North America.

28, 2022 – Ashland Global Holdings Inc. announced it has completed the previously announced sale of its Performance Adhesives business to Arkema in an all-cash transaction valued at approximately \$1.65 billion.

Competition is an important issue in any market research analysis. With the help of the competitive analysis provided in the report, players can easily study the key strategies employed by leading players in the Molding Compounds market. The major and emerging players of the Molding Compounds Market are closely studied considering their market share, production, sales, revenue growth, gross margin, product portfolio, and other important factors. This will help players familiarize themselves with the movements of their toughest competitors in the Molding Compounds market.

The segmental analysis section of the report includes a thorough research study on key Type and application segments of the Molding Compounds market

Molding Compounds Market by Resin Type, 2023-2029, (USD Billion), (Kilotons)

Phenolic

Epoxy

Polyester

Urea

Melamine

Molding Compounds Market by Application, 2023-2029, (USD Billion), (Kilotons)

Electrical

Aerospace

Automotive

Molding Compounds Market by End-User, 2023-2029, (USD Billion), (Kilotons)

Electrical & Electronics

Aerospace

Automotive

If opting for the Global version of Molding Compounds Market; then the below country analysis would be included:

- North America (the USA, Canada, and Mexico)
- Europe (Germany, France, the United Kingdom, Netherlands, Italy, Nordic Nations, Spain, Switzerland, and the Rest of Europe)
- Asia-Pacific (China, Japan, Australia, New Zealand, South Korea, India, Southeast Asia, and the Rest of APAC)

The biggest market in 2021 will continue to be Asia-Pacific, which is predicted to develop at a respectable rate throughout the course of the projection period. The bulk of the thermoset Molding Compounds market is located in this area, which also includes China, Japan, India, South Korea, Australia, and the rest of Asia-Pacific. The thermoset Molding Compounds market is anticipated to be dominated by China and India throughout the anticipated period. The leaders of China and India are also anticipated to make important contributions to the growth of the thermoset Molding Compounds market through the development of smart cities and cutting-edge infrastructure.

- South America (Brazil, Argentina, Chile, Colombia, the Rest of the countries, etc.)
- the Middle East and Africa (Saudi Arabia, United Arab Emirates, Israel, Egypt, Turkey, Nigeria, South Africa, Rest of MEA)

Important years considered in the Molding Compounds study:

Historical year – 2018-2021;

Base year – 2022;

Forecast period\*\* – 2023 to 2029 [\*\* unless otherwise stated]

Here's how Exactitude Consultancy helps the stakeholders and CXOs through the reports:

**Inculcation and Evaluation of Strategic Collaborations:** The researchers analyse recent strategic activities like mergers, acquisitions, partnerships, collaborations, and joint ventures.

**Perfect Market Size Estimations:** The report analyses the demographics, growth potential, and capability of the Molding Compounds market through the forecast period.

This factor leads to the estimation of the Molding Compounds market size and also provides an outline about how the market will retrieve growth during the assessment period.

**Investment Research:** The report focuses on the ongoing and upcoming investment opportunities across a particular Molding Compounds market that will help the stakeholders to be aware of the current investment scenario across the market.

Reasons to Procure this Report:

The research would help top administration/policymakers/professionals/product advancements/sales managers and stakeholders in this market in the following ways.

The report provides Molding Compounds market revenues at the worldwide, regional, and country levels with a complete analysis to 2029 permitting companies to analyze their market share and analyze projections, and find new markets to aim for.

The research includes the Molding Compounds market split by different Types, applications, technologies, and end-uses. This segmentation helps leaders plan their products and finances based on the upcoming development rates of each segment.

Molding Compounds market analysis benefits investors by knowing the scope and position of the market giving them information on key drivers, challenges, restraints, and expansion chances of the market and moderate threats.

This report would help to understand competition better with a detailed analysis and key

strategies of their competitors and plan their position in the business.

The study helps evaluate Molding Compounds business predictions by region, key countries, and top companies' information to channel their investments.

What is new in 2023?

- Major developments that can change the business landscape as well as market forecasts.
- Addition/refinement in segmentation–Increase in depth or width of segmentation of the market.
- Coverage of new market players and change in the market share of existing players of the Molding Compounds market.
- Updated financial information and product portfolios of players operating in the Molding Compounds market.
- Updated market developments of the profiled players.
- Any new data points/analysis (frameworks) which was not present in the previous version of the report

The new edition of the report consists of trends/disruptions on customer's business, tariff and regulatory landscape, pricing analysis, and a market ecosystem map to enable a better understanding of the market dynamics for Molding Compounds.

Customization services available with the report:

- Country level market for Molding Compounds market (up to 5)
- Profiling and additional market players (up to 5)
- Up to 40 hours of customization.
- post-sales support for 1 year from the date of delivery.

Please contact our sales professional ( [sales@exactitudeconsultancy.com](mailto:sales@exactitudeconsultancy.com) ), we will ensure you obtain the report which works for your needs.

About Us:

Exactitude Consultancy is a Market research & consulting services firm which helps its client to address their most pressing strategic and business challenges. Our professional team works hard to fetch the most authentic research reports backed with impeccable data figures which guarantee outstanding results every time for you. So, whether it is the latest report from the researchers or a custom requirement, our team is here to help you in the best possible way.
