---> 27 YEARS OF INDEPENDENT RESEARCH:

Global Crisis. The Responsibility | International Online Forum. December 2, 2023

The forum seeks to answer pressing questions that linger in the public mind: What is happening to our planet? Why are catastrophic events becoming more frequent and devastating? And most crucially, can humanity avert a global catastrophe?

Our planet is at a crossroads, with thousands of lives at stake due to increasing environmental disasters. Despite the gravity of the situation, there's a noticeable silence from governments, media, scientists, and public figures — not out of ignorance, but from a lack of clear solutions. The

Delve into a multidisciplinary study of climate cataclysms, including studies of other planets and the 12,000-year cycle of climate catastrophes. Unfiltered research that's driven by true science, not by agendas.

---> TRUE CAUSES OF CLIMATE CATAclysms:

Discover the real story behind climate disasters, unveil the facts and figures that define our planet's fate in 2024 and beyond.

---> CONSEQUENCES OF INACTION:

Understand the dire outcome of ignoring crucial information.

---> THE SOLUTIONS

The event will bring together the brightest minds, including scientists, active participants of Creative Society and thought leaders, to discuss potential solutions and strategies to overcome the climate crisis. The Creative Society emphasizes that while we face a multitude of problems, our shared climate challenge eclipses them all. There's a window of opportunity for change, but it requires collective action and ability for people to learn more about true causes.

The forum will be broadcast live online on all social media platforms, providing an opportunity for people worldwide to join the discussion and take a stand.
