

Global Gaming Data Announces Upcoming Sports Information Website SportsDataLive.com

SportsDataLive.com, launching in January, 2024, will serve as a showcase for Global Gaming Data's sports data and information platform.

TAMPA, FLORIDA, USA, November 28, 2023 /EINPresswire.com/ -- [Global Gaming Data](#), LLC, a Florida technology company, is pleased to announce the upcoming launch of their sports data and sports information website [SportsDataLive.com](#). Through a long-term exclusive partnership with Data Sports Group out of Berlin, Germany, Global Gaming Data is now licensing world class sports data feeds to North American digital publishers and is launching the SportsDataLive.com website to serve as a consumer facing showcase of their sports data product offerings and capabilities.

"Our sports data catalogue covers virtually all sports around the world, to include the NFL, NBA, MLB, NHL, MLS, NASCAR, F1, and all major NCAA sports as well as international sports including over 600 soccer leagues from around the globe", said John Brier, Global Gaming Data's Managing Partner. "The SportsDataLive.com website will allow consumers to access realtime sports data and information for their favorite sports, teams, leagues, games, and players from around the world. From a sports information perspective SportsDateLive.com will offer consumers as much sports information as they would find at ESPN, CBS Sports, or any other world-class sports information web site," added Brier.

SportsDataLive.com will give digital publishers interested in licensing sports data a realtime look at Global Gaming Data's sports data products in action. SportsDataLive.com will be available in English and Spanish.

Global Gaming Data offers content across an array of digital publishers including newspapers, sports books, television stations, portals, app builders, and digital device manufacturers allowing

Sports Data Live will showcase our sports information capabilities, allowing digital publishers to visualize how they can better serve consumers with our real-time customized sports data feeds.”
