Product Line-up Highlights:

SMRTLED+ Series: Renowned for high performance and energy efficiency, the series includes:

SMRTLED+ 10K, 8.5K, and 5K LED Strips: Offering lumens of 10,000, 8,500, and 5,000, these LED strips are perfect for various indoor applications.

SMRTLED+ SunRise Tower: An innovative stackable design delivering up to 150,000 lumens, ideal for enhancing micro-green yields. Known for its low-voltage, carbon-neutral approach.

SMRTLED+ SunCluster: With 70,000 lumens per cluster, this product is a game-changer in indoor farming, offering exceptional illumination and energy savings.

SMRTLED+ Motion-Deactivated UV Sanitizer: This groundbreaking product offers automatic UV germicidal light deactivation upon motion detection, ensuring safety and continuous sanitation.

SMRTLED+ UV Grow: Designed for indoor plant enthusiasts, it uses UVA spectrum LED technology to promote healthy plant growth indoors.

GR8 TEK's dedication to sustainability is evident in its product lineup, offering a greener alternative to traditional farming methods. The non-heat generating SMRTLED+ series, eliminating the need for a ballast, significantly reduces carbon emissions. Paired with Optical Disinfection instead of pesticides, these innovations represent a leap forward in tackling environmental and health challenges.

Under the leadership of founder Alan Ghahramani, GR8 TEK has emerged as a disruptor in smart technology solutions. Ghahramani's approach has driven the company's mission to deliver smarter, sustainable solutions that address food insecurities and energy costs.

"I am thrilled that we will soon offer GR8 TEK's innovative products on Walmart.com," said Alan Ghahramani. "Our journey at GR8 TEK has consistently revolved around introducing sustainable, energy-efficient, carbon-neutral IoT smart devices. The availability of our SMRTLED+ series and UV germicidal products on this global platform marks a significant stride towards realizing our vision for a more sustainable and energy-efficient future."
