AI's impact on media creation is the subject of Axle AI's latest webinars, Thursday November 30th at 10AM and 2PM EDT

Axle AI, the industry leader in using AI and machine learning to search media repositories, is holding free webinars on Thursday, Nov. 30th at 11am and 2pm EDT.

LOS ANGELES, CA, USA, November 30, 2023 /EINPresswire.com/ -- Axle AI is breakthrough software that helps media teams remotely search and manage their video content through browsers, AI and machine learning. The solution can be deployed entirely on-premise or in the hybrid cloud,

Axle AI webinars on AI for your Media, November 30th 2023

alWe hope you can attend one of our webinar sessions on Thursday, covering several aspects of AI's impact on video creation, including a deeper dive on Axle AI's solutions to make media easier to search and repurpose for social media. The pace of new developments in this space has been amazing over recent months and even weeks; the company's executives will discuss the wider implications as well as highlight specific solutions from up-and-coming third party developers. The media industry has been reeling from the potential impact of AI across the board, impacting even the recent Hollywood strikes. Axle AI is highlighting a number of key uses for AI in media that will positively impact the industry, allowing better quality content to be produced more efficiently than ever before.
