GeoCultura's 2024 tours offer its guests a journey through landscapes and an immersive experience led by knowledgeable guides and experts. Discover the world's wonders with GeoCultura, where every adventure is a voyage of understanding, connection, and appreciation. Tours range from three to seven days. For those looking for that special trip with just friends, family, or colleagues, GeoCultura can create the perfect experience, fully guided, partially guided, or self-guided.

About GeoCultura:

GeoCultura's small group tours range from two nights and three days to six nights and seven days, and every tour is filled with stories that show how the earth, the land, and the people connect to bring us to where we are today. GeoCultura offers this new and exciting approach with trips to explore the world's most important landscapes and geology and to hear fascinating

stories linking them to local history. The tours have the unique benefit of being led by a combination of expert earth scientists working together with local historians and regional tourist guides. The aim is to immerse participants in the local culture and its origins, as well as enjoying the local cuisine. The tours provide an irresistible combination of awe-inspiring scenery, great company, and superb guides.

The links between the landscapes and earth history of an area and its human history and culture is increasingly being exposed to provide new insights into historic changes and explanations for events that root history more strongly in the natural evolution of our world. GeoCultura tours will allow you to explore these insights with expert leaders in regions far and wide, and closer to home.
