

# DYU C6: the ideal companion for urban explorers, suitable for urban exploration

NETHERLANDS, December 5, 2023 /EINPresswire.com/ -- On the road to urban exploration, there is an electric bicycle that is a new concept for urban travel. DYU's latest [C6](#) 26-inch urban e-bike, with its innovative design and superior performance, is the perfect companion for urban explorers.

Innovative design, beautiful and practical

The design concept of the DYU C6 combines modern aesthetics and practicality. The body adopts lightweight iron and aluminum alloy materials, combined with streamlined design, which is not only beautiful and generous, but also greatly reduces the weight of the vehicle while ensuring strength. This design makes the C6 suitable for both daily commutes and casual weekend rides.

Smart technology to enhance the riding experience

C6 is equipped with intelligent torque sensor and intelligent APP control system, these advanced intelligent technologies provide riders with a more comfortable and safe riding experience. The torque sensor can intelligently adjust the motor output according to the rider's pedal frequency and force, while the APP control system allows users to monitor the vehicle status in real time through their mobile phones, and even perform remote locking and anti-theft alarms.

Excellent performance to meet diverse needs

The C6 is equipped with a 350W high-efficiency motor and a 36V, 12.5Ah high-capacity lithium-ion battery, which provides powerful power and a range of up to 30-37 miles. Whether it is the busy streets of the city or the nature trails in the suburbs, the C6 is easily handled. The front fork damping system and the SHIMANO 7-speed transmission system ensure a comfortable riding experience in different road conditions.

Safe and reliable, guard every journey

In terms of security, the C6 is impeccable. It uses a front and rear hydraulic disc brake system to ensure braking effect in various weather and road conditions. The vehicle is also equipped with LED headlights and taillights, which guarantee good visibility and safety both day and night.

Humanized design, fit urban life

The C6 is designed with the convenience of urban living in mind. Its lightweight folding design makes the vehicle easy to carry and store, making it ideal for urban living environments. The vehicle's luggage rack is designed to provide additional convenience for daily commuting and shopping. Adjustable seats and handlebars also ensure adaptability to different rider heights and riding positions.

In introducing the C6, DYU spokesperson Li Na said: "The C6 is our deep understanding and response to modern urban life. It is not only an electric bicycle, but also a smart, environmentally friendly and convenient way of life. We are confident that the C6 will be the perfect companion for urban explorers."

With the increasing attention to environmental protection and smart travel methods, DYU C6 is becoming the first choice for more and more urban residents with its unique intelligent functions and excellent performance. This is not only a way to travel, but also an expression of life attitude.
