

MUNTERS UNVEILS NEXT GENERATION CIRCULATION FAN WITH MUNTERS DRIVE G2 MAX

CX 74 with Munters Drive G2 MAX EC motor technology offers the a combination of airflow and energy savings.

LANSING, MICHIGAN, UNITED STATES,
November 30, 2023 /

EINPresswire.com/ -- [Munters Corporation](#), a leading manufacturer of ventilation and climate control systems for agricultural producers, today announced the launch of the CX 74 circulation fan with [Munters Drive G2 MAX](#), the next generation of EC motor technology.

The CX 74 is designed and engineered specifically for the demanding conditions of a modern dairy operation, with the combination of airflow and energy savings 57,500 thrust cfm and 25.3 thrust cfm/watt, CX 74 with Munters Drive G2 delivers the best performance in its class.

The CX 74 with Munters Drive G2 MAX features:

- Integrated control box: Enjoy hassle-free setup with plug-and-play programming, saving hours of valuable set up time
- Propeller design which maximizes airflow and centerline velocity
- High quality fiberglass housing for a long lifespan and an oversized aerodynamic air intake provides the maximum airflow for a 74" propeller
- Chain or pipe mount hanging kits available for multiple ways to mount the fan, guard kit available separately
- Proudly designed and built in the USA with locally sourced components

"The CX 74 is the perfect solution for dairy farmers who are looking for a high-performance, energy-efficient, and durable circulation fan," said Craig Morley, sales director at Munters

Munters Drive G2 MAX is a 3 KW EC motor is designed specifically for the Ag industry, and includes plug-and-play programming, saving farmers time during installation.

The CX 74 is the perfect solution for dairy farmers who are looking for a high-performance, energy-efficient, and durable circulation fan."

*Craig Morley, Sales Director
for Munters Corporation*

Corporation. "We are excited to offer our customers Munters Drive on the CX 74, this innovative new product and help them improve their dairy operations."

Additional benefits of the CX 74 include:

- Higher centerline velocity for more effective air movement and [heat stress](#) relief
- Fewer fans to install and maintain, lowering total cost of ownership
- Designed and built in the USA for maximum durability and performance

- Backed by Munters' industry-leading warranty and customer support

Both the CX 74 and the Munters Atlas 74 with Munters Drive G2 MAX are excellent choices for dairy farmers who are looking for a high-performance, energy-efficient circulation fan.

CX 74 is also available as a belt drive fan with 57,550 thrust cfm and 23.6 cfm/watt. All versions of the CX 74 are now available for purchase through agriculture equipment dealers and Munters sales representatives.
