

Organic Food and Beverages Market Size 2023 | Share, Research Report Overview, Trends and Forecast to 2032

Organic foods and beverages intake is expected to provide ample advantages over conventional foods.

PORTLAND, OR, UNITED STATES,
December 1, 2023 /EINPresswire.com/

-- The growing environmental concerns over the use of harmful chemicals in agriculture and farming and its ill-effects on consumers' health result in the increase in demand for the organic food and beverages. The surge in prevalence of chronic diseases such as cancer, diabetes, and cardiovascular diseases among the global population, the increase in burden of infectious diseases, increase in healthcare expenditure, and the rise in health-consciousness trend are some of the prominent factors that shift consumers' focus towards the adoption of healthy and quality food and beverages across the globe.

Organic foods and beverages intake is expected to provide ample advantages over conventional foods. Organic products help to get free from the adverse effects of the inorganic foods and support to lead a healthy life. The global [organic food and beverages market](#) is poised to witness significant growth during the forecast period, owing to increase in income levels, rise in awareness regarding advantages of organic products, and improved organic farming techniques. The demand for organic food and beverages is anticipated to quadruple by 2031 as compared to its size in 2020. In addition, due to huge growth potential, the market attracts more number of investors and governments of many countries are coming up with new investment policies to encourage the organic farming, which creates huge growth opportunities for the organic food and beverages market to nurture in the near future. However, factors such as high price of organic products and low shelf life are expected to hinder the organic food and beverages market growth.

The Key Market Players:

WhiteWave Foods Co.,

Hain celestial Group, Inc.,

General Mills Inc.

United Natural Foods, Inc.,

SpartanNash Company,

Amy's Kitchen, Inc.,

Dean Foods Company,

Starbucks Corporation,

The Kroger Co.,

Whole Foods Market Inc.

“The outbreak of the COVID-19 in 2020 significantly boosted the demand for the organic food products across the globe. Health consciousness among the people increased exponentially. As a result, the demand for the clean labelled food products and healthy products increased at a significant rate. As per the Organic Trade Association, the U.S. witnessed an all-time high sales of the organic food in its history in 2020.”

According to the organic food and beverages market analysis, the market is segmented based on product type, process, distribution channel, and region. On the basis of product type, the organic food and beverages market is segmented into organic foods and vegetables, organic meat, fish and poultry, organic dairy products, organic frozen and processed foods, organic non-dairy beverages, organic coffee and tea, organic beer and wine, and other organic food and beverages.
