"treatment/X-ray room" was spotlighted in a recently published video clip posted on social media. The video, available for viewing on the practice's Facebook page, helps to underscore the leading-edge therapeutic tools Mandarino Chiropractic has become known for.

Calling the viewers' attention to the "very well-outfitted room," Dr. Frank J. Mandarino explains. "... we do our digital X-rays in here with the practitioner behind the leaded screen."

Gesturing toward an automatic flexion table by Hill Laboratories, Mandarino continues, "And for treatment purposes, when we're not taking X-rays ... this is one of our newest tables.... which basically does automatic flexion."

Further along the room tour, Dr. Mandarino calls attention to "a 'stim' unit with the combination of ultrasound" and an area where a variety of diagnostic testing is performed, such as range-of-motion, manual muscle testing, and surface EMGs.
