

# Dextara Digital is officially a Salesforce Summit (Platinum) Partner Now

DOVER, DELAWARE, UNITED STATES OF AMERICA, December 4, 2023

/EINPresswire.com/ -- [Dextara](#), a leading digital services provider in the Salesforce ecosystem, proudly announces its official recognition as a Salesforce Summit (Platinum) Partner, exemplifying the company's unwavering commitment to excellence, high-quality project delivery, and client satisfaction. Dextara has achieved this remarkable milestone within four years of its inception, positioning itself as an industry trailblazer.

Salesforce's partnership program is designed to recognize and reward top-performing global partners across four tiers – Base (Recognized), Ridge (Silver), Crest (Gold), and Summit (Platinum).

Out of these, the Summit (Platinum) level represents the highest level of achievement within this partnership program. To earn this prestigious partnership status, companies must excel in various aspects, evaluated through the intricate 'Partner Value Score' algorithm, which includes the number of customer implementations across different industry domains, customer satisfaction, social impact, certifications, project success, deep expertise across multiple Salesforce clouds and more — ensuring that only the most deserving Salesforce consulting partners achieve this prestigious recognition. With only 7-8% of all Salesforce consulting partners reaching the Summit (Platinum) Partner status after working for a decade, Dextara raises the bar by reaching this milestone within four years.

"Our #Build>Great> journey to becoming a 'Summit (Platinum) Consulting Partner' is no small feat. We are extremely proud of our achievement and would like to extend our heartfelt gratitude to our clients, our global team members, and our partners for their unwavering support and trust. We will continue to strive for excellence and exceed expectations in all our

future endeavors," said Sreekanth Lapala, the CEO of Dextara.

In addition to providing top-notch Salesforce implementation and consulting services, Dextara has been at the forefront of developing cutting-edge Salesforce native apps, including [Dextara CPQ](#), and [DXHealth+](#), and is gearing up to launch many groundbreaking products on Salesforce AppExchange in 2024.
