LONDON, GREATER LONDON, UK, December 7, 2023 /EINPresswire.com/ -- The global land planning and development market is experiencing substantial growth, surging from \$168.48 billion in 2022 to \$185.22 billion in 2023, registering an impressive Compound Annual Growth Rate (CAGR) of 9.9%. Projections indicate a continued upward trajectory, with the market poised to reach \$266.9 billion by 2027, reflecting a CAGR of 9.6%.

Rapid Urbanization Drives Market Expansion

The escalating urban population worldwide is anticipated to fuel the demand for new residential buildings throughout the forecast period. The UN World Urbanization Prospects report projects that over two-thirds (60%) of the global population will reside in cities by 2050. Notably, significant opportunities are expected in Asian countries like Indonesia, Vietnam, and the Philippines, which are gaining popularity for export-oriented manufacturing. The World Bank estimates a growth of 250 million in the urban population of South Asia by 2030. This swift urbanization is set to drive the demand for new infrastructure, propelling [the land planning and development market](#).

Key Players Shaping the Landscape

Major players contributing to the vibrant landscape of the land planning and development market include China State Construction Engineering Corporation Ltd., Risesun Real Estate Development Co Ltd., Xiamen C&D, Greenland Holding Group, and Eiffage SA.

Innovation Spotlight: Drone Technology

Land planning and development companies are leveraging cutting-edge technologies such as drones to enhance the efficiency of land development projects. Drones, unmanned aerial vehicles (UAVs) equipped with communication technologies and remote control, find diverse applications in land development, including capturing panoramic images for marketing, earthwork volume calculations, elevation mapping, and environmental analysis. The dynamic nature of terrain during land development requires constant monitoring, and drones play a pivotal role in collecting real-time data, enabling project managers to make informed decisions and monitor project progress accurately.

Market Segmentation:

- Type: Residential Land Planning and Development, Commercial and Institutional Land Planning and Development, Industrial Land Planning and Development
- Ownership: Chained, Standalone
- Service: Online, Offline

Subsegments Covered: Houses and Housing Estate Developments, Apartments and Other Residential Developments
