

# Shipshape Communication with Metropolis: OfficeWatch Call Reporting Enhances Naval Operations Across the Fleet

*Metropolis announced today the deployment of their OfficeWatch Call Reporting on several US Naval ships in 2023, fortifying their partnership with the US Navy.*

FORT LAUDERDALE, FLORIDA, UNITED STATES, December 5, 2023  
/EINPresswire.com/ -- [Metropolis Corp.](#), a foremost provider of [UC analytics solutions](#), proudly announced the successful deployment of their [OfficeWatch Call Reporting](#) software across multiple U.S. Navy sites in 2023, further solidifying their longstanding commitment to meeting the stringent needs of the military.

OfficeWatch Call Reporting Solution Deployed for US Navy

Uncover Business Insights From Hybrid Unified Communications

The latest installations, including the USNS Red Cloud (T-AKR 313), USNS Watkins (T-AKR-315), and USNS Sisler (T-AKR-311), demonstrate Metropolis' ongoing dedication to providing advanced communication solutions tailored to the unique requirements of the U.S. Navy. Over the course of the relationship, Metropolis has installed UC analytics and call reporting solutions on approximately 80 naval ships.

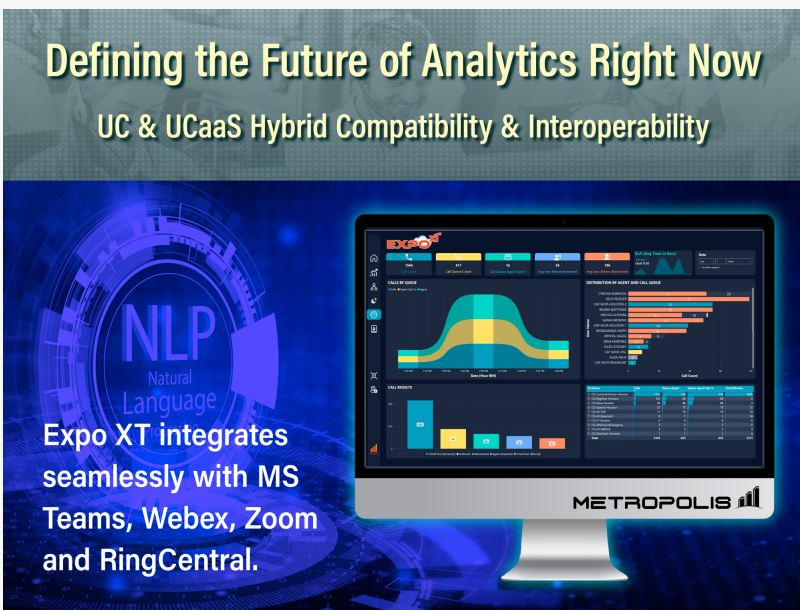

"These recent installations further solidify our longstanding partnership with the U.S. Navy," said Marcela Umana, the point of contact for government accounts with Metropolis. "We are honored to support their critical missions."

While Metropolis provides cloud and hybrid solutions, OfficeWatch Call Reporting Software is an on-premise solution, meeting the specific needs of the U.S. Navy and aligning with their commitment to communication efficiency across vessels. OfficeWatch Call Reporting delivers robust features including detailed call analytics and real-time communication monitoring.
