MAYNARD, MA, UNITED STATES, December 6, 2023 /EINPresswire.com/ -- [ClearGov](#), a leader in public sector technology solutions and [Budget Cycle Management](#) software, achieved a significant milestone in the government finance sector: the acquisition of its 1,000th active customer. This milestone demonstrates ClearGov's commitment to revolutionizing local

government budgeting processes with easy-to-use software that fosters greater transparency and engagement within communities.

“

Surpassing our 1,000th active customer is a testament to ClearGov's dedication to innovation and our mission of empowering local governments to budget better.”

Bryan Burdick, President and Co-founder of ClearGov

With over 724% revenue growth since 2019 and three consecutive years on the Inc. 5000 list of the fastest-growing privately held companies in the United States, ClearGov is the go-to solution for public sector agencies looking to streamline their budgeting and planning processes.

“ClearGov delivers exactly what they promise. The ClearGov solution helps us communicate our budget and

key metrics in a way that everyone understands. Their solution is elegant, affordable, simple to use, and saves us a bunch of time,” said Ivy Adams, Budget Analyst for Henry County, Georgia.

Market challenges influencing local officials to adopt budgeting technology solutions, like ClearGov, include labor shortages and high employee turnover in the public sector. Regulatory pressure to digitize operations and the need to build trust with citizens are also major factors when considering software.

ClearGov's budgeting, planning, and permitting solutions are at the forefront of addressing these challenges and aligning with the evolving needs of local governments. ClearGov's suite of products includes:

- ClearPlans - Create, execute, and manage any type of plan (e.g., strategic plan, comprehensive plan, general plan, etc.).
