*Two wheels to mental therapy—
a motorcyclist's analysis of
the Freudian analysts.*

Bestselling **MOTORCYCLE SEX** from the 1990s is revised to meet digital demand of erogenous riders and readers. Cognitive behavioral therapy, with illustrations, additional photos, and explanations, has been brought into the 21st century, and like loud pipes, is saving motorcyclists from a life on a psychiatrist's or psychologist's couch. Laugh, love and ride.

MOTORCYCLE SEX includes:

- Motorcycles are erotic, not psychotic
- Daimler vs. Freud: The theory of problem solving
- Dispelling "Kentucky Fried Freud" in America
- Waylon Barstow's "Biker Love Chant"
- Naked ladies and motorcycles
- Orgasmic roads in America
- Snakes and riding naked
- Motorcycle racing—bungee jumping without a bungee
- Comical anecdotes reveal Sigmund Freud's failures in the motorcycle world

Self-love and sex were defined by Freud as narcissism. Object-choice is often confused with narcissistic identification. The choice between a motorcycle and a human being is a cathexis incomprehensible to Freud, being neither narcissistic/self-love nor object-choice. It is merely a cathexis of a sexual object. Therefore, **MOTORCYCLE SEX** could well be considered a nightmare for the 200,000+ Freudian therapists in America.

Herr Prof. Dr. Gregory W. Frazier is the world's most cerebral motorcycle adventurer and an existential motorcycle globetrotter. Known for his wit and unique take on travel and adventure, his writings appear widely throughout the international motorcycling press.
