The award-winning project saw BKC Kitchen and Bath transform a dimly lit, confined kitchen into a vibrant, welcoming space. Candice Hill, a designer at BKC, led the transformation. She explains, "We faced the challenge of revamping a kitchen tucked away in a small, shadowy area. Our goal

was to create a functional yet inviting area fit for both remote work and social gatherings. We achieved this by demolishing a wall and utilizing a palette of whites, wood tones, and grey to infuse the area with light, interest, and warmth.”

BKC's choice of cabinetry was pivotal to the project's success. They opted for [Crystal Cabinets](#), a family-operated

custom cabinet producer from central Minnesota with a legacy dating back to 1947. Their diverse style range and high-quality finishes were critical factors in their selection. Candice notes, "Crystal Cabinets' extensive variety in style and color, coupled with their furniture-level finishing, made them the perfect choice for this remodel."

Paul Hoff, BKC's owner, expressed gratitude for the HBA's recognition, saying, "This award is a testament to our commitment to reimagining kitchen spaces. It's a motivation to continually innovate in kitchen design, leveraging our extensive expertise and passion for crafting spaces that look beautiful and resonate deeply with our client's dreams and lifestyles."
