

Dental Laboratories Market is probable to reach above USD 77.43 billion by 2029 | CAGR +8 % | Exactitude Consultancy

The global Dental Laboratories Market is expected to grow at 8 % CAGR from 2020 to 2029. It is expected to reach above USD 77.43 billion by 2029.

LUTON, BEDFORDSHIRE, UNITED KINGDOM, December 7, 2023 /EINPresswire.com/ -- Exactitude Consultancy, the market research and consulting wing of Ameliorate Digital Consultancy Private Limited has completed and published the final copy of the detailed research report on the [Dental Laboratories Market](#).

Dental laboratories are specialized facilities where dental prosthetics, restorations, and appliances are custom-made to fulfill the prescribed needs of dentists and their patients. These laboratories play a crucial role in the field of dentistry by crafting a variety of dental devices that enhance oral health, restore dental function, and improve aesthetics.

“

Dental laboratories are responsible for manufacturing various types of dental prosthetics, including crowns, bridges, dentures, and dental implants.”

Exactitudeconsultancy

Global Dental Laboratories market Size, Status, and Forecast for the 2023-2029. In-depth research has been compiled to provide the most up-to-date information on key aspects of the worldwide market. This research report covers major aspects of the Dental Laboratories Market including drivers, restraints, historical and current trends, regulatory scenarios, and technological advancements. The

information provided under this section covers the financial revenue of all the major competitors with the addition of product benchmarking, key developments, major region expansion status, and SWOT analysis of any 3 to 5 top market players Furthermore, the microeconomic and macroeconomic factor that affects the market growth is also studied in order to invest in the

market. The analysis of all such factors provides a better understanding of the market to achieve the greatest return in terms of revenue.

Dental Laboratories Market Top Key Players:

The dental laboratories market key players include Envista, Dentsply Sirona, A-dec Inc. Institut Straumann AG, GC Corporation, Mitsui Chemicals, 3M, Dental Services Group, Zimmer Biomet, Ultradent Products, Inc.

These key leaders are implementing strategic formulations for corporate expansion, such as new product development and commercialization, commercial expansion, and distribution agreements. Moreover, these participants are substantially spending on product development, which is fueling revenue generation.

Recent Development:

In September 2021, Straumann Group (Switzerland) and Aspen Dental provided dental offices across the United States with implant abutments, CAD/CAM (Computer-aided design or Computer-aided manufacturing) alternatives, and solutions.

In July 2021, Ivoclar Vivadent (Liechtenstein) and exocad GmbH (exocad), a subsidiary of Align Technology, Inc. (US), have formed a strategic alliance to develop a digital platform that will allow dental laboratories to expand their digital processes and increase lab work efficiency.

Regional Share Analysis:

The Dental Laboratories Market by region includes North America, Asia-Pacific (APAC), Europe, South America, and Middle East & Africa (MEA).

North America: includes the US, Canada, Mexico

Asia Pacific: includes China, Japan, South Korea, India, Australia, ASEAN and Rest of APAC

Europe: includes UK, Germany, France, Italy, Spain, Russia, and Rest of Europe

South America: includes Brazil, Argentina and Rest of South America

Middle East & Africa: includes Turkey, UAE, Saudi Arabia, South Africa, and Rest of MEA

The North American market held the largest market share until 2021, with a revenue share of approximately 42%. The well-established healthcare infrastructure, increased public awareness of oral healthcare, and high healthcare expenditure are the primary drivers of growth in this region.

During the forecast period, the Asia Pacific region is also expected to have the highest CAGR. The Asia Pacific market is expected to grow rapidly due to an aging population, rising disposable income, increased awareness of available treatments, and other large untapped opportunities. Furthermore, there is a growing awareness of oral hygiene, and this region offers lower-cost dental laboratory work, which is expected to drive the market during the forecast period.

During the analysis period, the European market is also expected to grow strongly. Increased oral health programs are being implemented in various communities. These community-based oral health programs aim to raise awareness, assist in the delivery of preventive treatments, and improve patient education about oral care.
