The National Stuttering Association is a leading voice in destigmatizing stuttering and empowering people who [stutter](#), serving thousands of people who stutter and their families annually.

Stuttering is a speech disorder involving disruptions in a person's speech. Stuttering generally involves repetitions or prolongations of sounds and syllables or hesitations or blocks in making voiced sounds. As a nonprofit that supports people who stutter of all ages, we know that stuttering can be about more than speech and affect more aspects of everyday life than can be seen by someone outside the stuttering community.
