Technology (IT) market has witnessed substantial growth. From \$8179.48 billion in 2022, the market expanded to \$8852.41 billion in 2023, demonstrating an impressive Compound Annual Growth Rate (CAGR) of 8.2%. Projections indicate sustained growth, with the market size expected to reach \$11,995.97 billion by 2027, maintaining a robust CAGR of 7.9%.

Cloud Computing: A Catalyst for IT Services

The surge in demand for cloud computing services is a key

driver for the growth of the IT services sector. Cloud computing, wherein data is stored on the internet by a service provider, has become integral for companies opting for applications hosted in the cloud. Statistics reveal a significant shift, with 60% of computing workloads in the public cloud in 2019, and an anticipated 94% of enterprise workloads processed by cloud data centers in 2021. The preference for cloud-based data storage further amplifies the demand for IT services.
