

# Virtual Wellness Care is Transforming Healthcare with its Innovative Digital Platform

*Helping Make Healthcare Make Sense*

DALLAS, TEXAS, USA, December 12, 2023 /EINPresswire.com/ -- [Virtual Wellness Care](https://www.einpresswire.com/2023/12/12/virtual-wellness-care) (VWC) proudly announces the launch of its digital health and wellness platform, a significant advancement in the accessibility and comprehension of health-related services globally. This platform empowers individuals and families by providing immediate access to personal health data, transparency in healthcare coverage, and direct connectivity with medical professionals.

Todd Wesson, CEO of Virtual Wellness Care, articulates his vision, stating, "My vision for Virtual Wellness Care is grounded in the belief that healthcare should be accessible, transparent, and empowering for individuals. The current healthcare experience can be challenging, with extended appointment wait times, unclear coverage models, and limited access to personal health information. Our platform is designed to simplify this experience, providing easy access to personal information and enabling individuals to be more informed and engaged in managing their health."

“

My vision for Virtual Wellness Care is grounded in the belief that healthcare should be accessible, transparent, and empowering for individuals.”

*Todd Wesson, CEO of Virtual Wellness Care*

The innovative wellness platform allows users to seamlessly access personal health data, including vitals, prescriptions, lab results, and more, all in one place. It also provides a comprehensive understanding of insurance

coverage and available benefit options, eliminating uncertainties related to coverage and deductibles.

VWC also facilitates direct communication with healthcare professionals, enhancing the patient-provider relationship and ensuring timely access to medical advice. The platform goes beyond traditional healthcare by integrating primary care, urgent care, labs, prescriptions, mental health, dental, vision, and disability services in one centralized platform.

Denis J. Gallagher, Founder and Chairman of [BOLD Capital Group, LLC](#), is acting as Advisor for VWC, stated, "Todd and his team have built an incredible organization and platform. This is a company that aligns with our values of innovation and products that will have a transformational impact on healthcare. We believe they will see tremendous growth. Their unique approach to modernize the virtual global health marketplace is amazing. We are excited to introduce them to some of our connections from insurance companies and major corporations to everyday businesses that need real solutions like this for their employees."

VWC is also expanding its current health-focused service model to include a more comprehensive insurance approach, encompassing life, disability, accidental death, and dismemberment coverage. This holistic approach redefines personal care management, offering a simplified and integrated solution for individuals.

VWC is actively seeking new investors to support its current market demand driving, platform development, resource growth, and infrastructure expansion.
