TRENTON, NJ, UNITED STATES, December 8, 2023

/EINPresswire.com/ -- Debut author Catherine Glover is set to release her compelling novel, "The Narc that I Know," an introspective exploration of love, toxicity, and the unexpected paths it can take. The book, released on December 02 2023 , promises readers a thought-provoking narrative that delves into the intricacies of narcissistic relationships.

In her mid-40s, protagonist Christina embarks on a journey of self-discovery, armed with a heart full of love and a soul yearning for connection. Little did she know that the man she encountered, Timothy, would become a catalyst for a life-altering experience. Glover's narrative takes an unflinching look at the dynamics of love, unraveling the true meaning of the emotion, but not in the way Christina expected.

The bond between Christina and Timothy transcends the ordinary; it evolves into a soul tie that defies conventional understanding. As their connection deepens, they discover a force beyond mere soul ties—they are twin flames, irrevocably bound by destiny. The novel explores the complexities of this narcissistic, karmic bond, offering readers a unique perspective on the intertwining of love, destiny, and the higher calling in both of their lives.

"The Narc that I Know" is a riveting tale that sheds light on the often-misunderstood world of narcissistic relationships. Glover's debut work is a poignant reminder that love, even in its most twisted forms, can lead to unexpected revelations and personal growth.

The book will be available soon on leading platforms including Amazon and Barnes & Noble.
