This feature is specifically designed to collect the multiple pay and bill requirements of staffing agencies' clients.

**Multi-Rate Timecard: Flexible Time Tracking for Contractors**  
The Multi-Rate Timecard allows contractors to allocate hours based on different pay rates, addressing the need for accurate billing in scenarios like shift differentials, training hours, and on-call hours. This feature is particularly useful for projects that require billing based on different project codes, commonly seen in legal and accounting fields.

Three Customizable Timecard Options:

Bilflo's Multi-Rate Timecard offers three distinct timecard formats, each addressing specific contractor scenarios:

The image displays three screenshots of the Bilflo Multi-Rate Timecard interface, each showing a weekly summary table for a contractor named John Adams, Physician Assistant, at Palm Health Resources, 12/16/23. The interface includes a sidebar with navigation options like Billing, People, Clients, Contractors, Team Members, Reports, Tools, Production, Approvals, and Settings.
