LightSpeedVT*

and LightSpeed VT's state-of-the-art virtual training technology, promising an enhanced learning experience for individuals and organizations seeking to bolster their security knowledge.

[Now live](#), CFISA's security awareness training on Lightspeed VT offers a comprehensive and interactive curriculum designed to empower participants with the skills and knowledge needed to navigate today's ever-evolving cybersecurity landscape. CFISA continues to enhance its

training content regularly, staying up-to-date with the latest cyber threats and best practices; the updated and enhanced security awareness, PCI compliance, and HIPAA courses cover a wide range of essential topics, including threat detection, data protection, social engineering awareness, best practices for safeguarding sensitive information, and much more.

"We are excited to partner with LightSpeed VT to deliver our industry-leading security awareness training to a global audience," said Michael Levin, CEO and Founder of CFISA. "With cyber threats becoming increasingly sophisticated, it's crucial for individuals and organizations to stay informed and prepared. Our collaboration with LightSpeed VT will provide a dynamic learning platform that engages participants and equips them with the tools to effectively mitigate risks."

LightSpeed VT's state-of-the-art training offers an immersive and engaging training experience, utilizing interactive modules, videos, quizzes, and real-life scenarios to ensure participants can apply their knowledge in practical situations. The training system's flexible format allows learners to progress at their own pace, making it an ideal solution for busy professionals and organizations of all sizes.

"We are thrilled to help launch these new cutting-edge, interactive courses from The Center For Information Security Awareness," said Jason Straub, CTO at LightSpeed VT. "Cybersecurity is more critical than ever right now and it is a topic that is in very high demand in the training space. These new interactive courses from CFISA will empower individuals and organizations to stay ahead of evolving threats."
