Service Provider App Set Up

JobSnap empowers service providers and contractors to directly engage with homeowners, bypassing the traditional high costs of lead generation and marketing. This not only streamlines the process but also opens up more opportunities for local businesses and freelancers in the gig economy.

“

Our platform addresses the major pain points in the home services market, particularly the excessive costs and lack of transparency that burden service providers.”

*James Albis, Founder and CEO
of JobSnap*

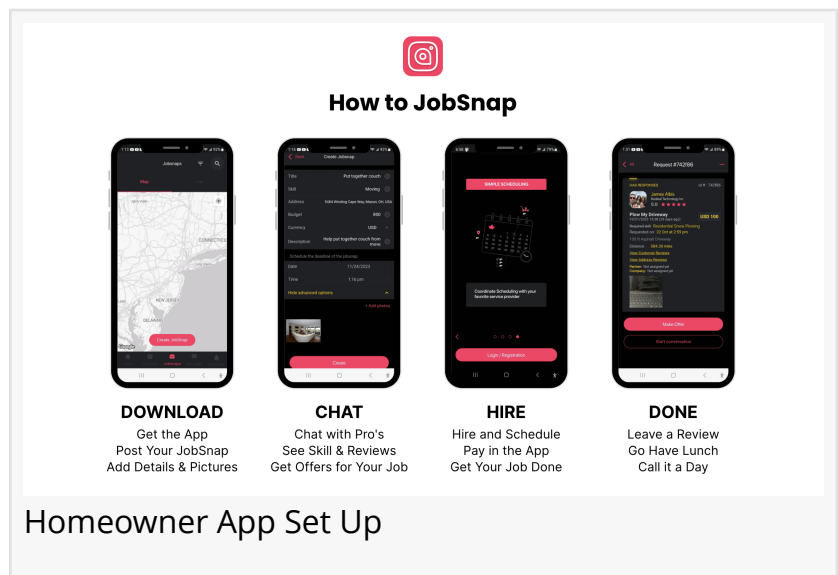

"JobSnap is set to transform the gig work landscape," said James Albis, Founder and CEO of JobSnap. "Our platform addresses the major pain points in the home services market, particularly the excessive costs and lack of transparency that burden service providers. We're excited to offer a solution that benefits both service providers and homeowners, fostering a thriving, connected community."

Key features of JobSnap include:

Direct and Transparent Connections: Service providers can directly respond to homeowner requests, with all job details, budgets, and timelines clearly outlined.

Time and Cost Savings: By providing direct job listings, the app saves service providers from spending time and money on searching for leads or advertising their services by charging a nominal monthly fee of \$97, while the service is free for homeowners to use.

Empowering Local Economies: By focusing on local service providers and homeowners, JobSnap fosters community growth and supports small businesses.

The platform has been designed to address the major market gaps in the current home services apps. Unlike other services, JobSnap does not sell user data, ensuring the privacy and security of its users. It also eliminates premium placements and 'credit' fees for leads, prioritizing fairness and transparency.

As the gig economy continues to grow, with a record number of Americans participating in freelance work, JobSnap provides an essential tool for turning part-time gigs into full-time business opportunities. The platform is especially beneficial for communities typically underrepresented in the gig economy, offering a more equitable and accessible path to business growth and success.

JobSnap is now available for download on the [iTunes App Store](#) and [Google Play Store](#).

About JobSnap:

JobSnap is an innovative mobile platform transforming the gig economy by revolutionizing how gig workers, contractors, and homeowners connect. With its unique 'Snap and Post' feature and elimination of high costs and inefficiencies of traditional lead generation and marketing, JobSnap is streamlining the process for both service providers and seekers. This disruptive approach allows gig professionals and contractors to directly engage with homeowners, bypassing the usual barriers and costly intermediaries. By simplifying the connection between those offering services and those in need, JobSnap paves the way for more transparent, efficient, and cost-effective transactions in the gig economy. Committed to empowering its community, JobSnap is redefining the dynamics of service provision and procurement, making it easier, more accessible, and more equitable for all involved.
