During this impactful visit, The Little Saint Nick Foundation connected with patients like a young girl named Awesome, who is originally from Nigeria, undergoing treatment at Shriner's for months. About The Little Saint Nick Foundation:

Bringing Smiles to Kids Everywhere

Teamwork Makes the Dream Work:
Collaborative Gift Bag Packing

The Little Saint Nick Foundation was founded in 2004 by Raymond Mohler Jr. at age six. Ray was in the hospital and felt fortunate that he was able to leave after eight hours. He decided he wanted to give back to the kids in the hospital who couldn't leave. That was the start of the Little Saint Nick Foundation. The organization helps kids in hospitals deal with their fear and anxiety, while also granting wishes to kids in the community. Through our emergency department gift bag program, toy drives, hospital parties, granting wishes, and having local chapters run by kids, for kids with the goal of "Kids Inspiring and Helping Kids". The Little Saint Nick Foundation operates throughout the United States and Canada with plans to expand around the globe through a youth movement never seen before.
