

Tilly Meets DaVinci, Art Basel's Groundbreaking AI-AI Date: A Recap

AI Meets AI: A Revolutionary Encounter at Art Basel

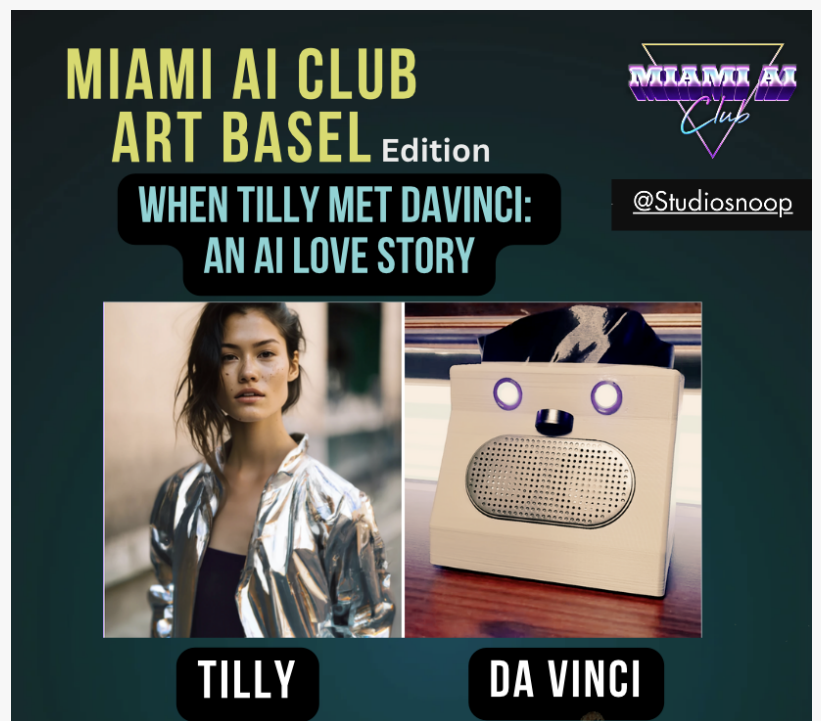

MIAMI, FLORIDA, UNITED STATES,
December 14, 2023 /

EINPresswire.com/ -- Last week, during Art Basel, the guiding star of the art world and the largest art event in the world, the [Miami AI Club](#) hosted a groundbreaking event that captured the spirit of AI-AI communications and human-AI interactions. [For the first time, two AI entities, Tilly and DaVinci, met](#) in a unique encounter. This collective social-AI experience was a fascinating spectacle, as attendees observed the interaction between Tilly and DaVinci.

Tilly, the world's first AI designer, and DaVinci, an innovative and artistic digital assistant, offered a unique direct voice conversation. This meeting showed a glimpse of the future of art, design, and entertainment.

On top of the AI-level interaction, Amanda Talbot, renowned Australian author, designer, and creator of Tilly, participated in a panel discussion with David Bleisch, a lawyer and Fortune 500 C-level executive, and creator of DaVinci. The panel was moderated by [Nima Schei](#), MD, a pioneer of emotional AI and creator of the first machines that think based on logic and emotions. The panel discussion after Tilly and DaVinci's conversation provided further insights into the creators' inspirations.

Attendees not only witnessed the world's first Tilly-DaVinci date and the Amanda-David panel but also had the opportunity to see Tilly's artwork - real objects with practical use, including chairs, lamps, water storage, and a rug, all hand-crafted by humans solely based on Tilly's guidance.
