Home Improvement Energy Efficient Tax Credits

Key highlights of the updated instructions for Form 5695 include:

Eligible Improvements: [Taxpayers who have made energy-efficient improvements to their homes](#) may be eligible to claim the credit. Eligible improvements include solar panels, geothermal heat pumps, and small wind turbines, among others.

Documentation: Taxpayers must provide documentation to support their claim for the credit, including receipts and manufacturer certifications. The instructions provide guidance on what documentation is required for each type of improvement.

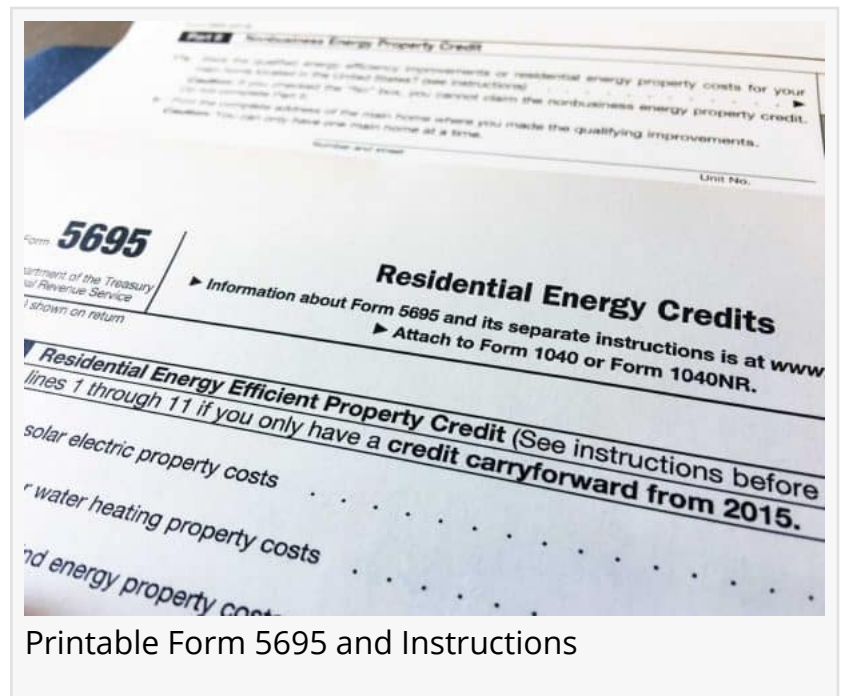

Calculation: The credit is calculated as a percentage of the cost of the eligible improvements, up to certain maximum amounts. The instructions provide guidance on how to calculate the credit for each type of improvement.

Taxpayers are encouraged to review the updated instructions carefully and to consult with a tax professional if they have any questions or concerns. The IRS also reminds taxpayers that they must retain all documentation related to their claim for the credit for at least three years from the date the tax return was filed.
