[token](https://www.nsavxtoken.com/nsavx-token) as it increases the utility and

functionality of NSAVx.com formerly

AWCx. With the completed sale of the

club's CEX earlier this month, the

acquirer Net Savings Link Inc (OTC

Symbol: NSAV) has decided to continue

upgrading while it redomiciles and

licenses for expansion and

international operations. The NSAVx

Token will be the primary utility and

value store for all of NSAV's Web3 technologies. It is anticipated that several already developed

technologies will be powered by the NSAVx Token, which will be live on Uniswap today, Friday

December 15th, between 2:00 pm and 6:00 pm mountain time.

The NSAVx platform and Token will bring together years of blockchain technology investment by the Company and serve as a valuable utility for connecting existing and future Web3 assets. Our team at AWC will continue to contribute significantly to the tech development and future of NSAVx while we look to integrate it with our own technologies. We are happy to announce that the NSAVx token will be added to our DiVinciPay checkout once the Uniswap listing is completed. <https://www.divincipay.com/>
