

JP Carpet Cleaning Expert Floor Care Announces Commitment to Eco-Friendly Practices

Carpet cleaning leader JP Carpet Cleaning is implementing green products, water use cuts, and carbon and waste reduction goals to shrink environmental impact.

BURBANK, CALIFORNIA, UNITED STATES, December 18, 2023 /EINPresswire.com/ -- [JP Carpet Cleaning Expert Floor Care](#), a leading name in floor cleaning and restoration services in Los Angeles and the San Fernando Valley, including Studio City, Burbank, Sherman Oaks, Hollywood, Santa Monica, and everywhere in between, is proud to announce its unwavering commitment to environmentally friendly practices and sustainable solutions.

Services JP Carpet Cleaning

As a family-owned and operated business with over 16 years of experience, JP Carpet Cleaning Expert Floor Care has always prioritized customer satisfaction and the well-being of the local community. Now, they are taking their commitment a step further by embracing eco-friendly practices that minimize their environmental footprint.

Key initiatives include:

1. ****Green Cleaning Products****: They have transitioned to using environmentally safe cleaning products that are free from harsh chemicals, ensuring the health and safety of their clients, their families, and their team. They've even changed the words they use when explaining their processes. They use cleaning products, not chemicals.
2. ****Reduced Water Usage****: We've implemented advanced cleaning techniques that reduce water usage while maintaining the quality of their services, continuing to provide outstanding

results. This not only conserves a precious resource but also minimizes wastewater production. Their truck-mounted unit also comes with a built-in water softener, to aid in this endeavor. This is especially important for [carpet steam cleaning](#) and upholstery cleaning, as the soft water will also leave the fibers to dry softer.

3. ****Energy-Efficient Equipment****: Their investment in energy-efficient equipment reduces their carbon footprint and lowers energy consumption during their cleaning and restoration processes.

4. ****Recycling Programs****: JP Carpet Cleaning Expert Floor Care actively participates in recycling programs to responsibly manage waste materials, such as used cleaning materials and packaging.

Peter, the owner of JP Carpet Cleaning Expert Floor Care, expressed his enthusiasm for these initiatives, saying, "We believe in preserving the beauty of our environment while enhancing the beauty of our clients' homes and businesses. Our commitment to eco-friendly practices aligns with our dedication to quality service."
