

Cargo Chief Enhances C4 Platform with Greenscreens.ai Predictive Pricing Integration

SAN FRANCISCO, CALIFORNIA, UNITED STATES, December 18, 2023

/EINPresswire.com/ -- Cargo Chief, a leader in Capacity Procurement and Automation for freight brokers, has forged a strategic partnership with Greenscreens.ai by integrating predictive pricing into its C4 platform. The collaboration enhances the capabilities of both solutions, allowing users to seamlessly leverage either C4's or Greenscreens' rate within Cargo Chief's digital freight matching solution.

Streamlining the experience for C4 users, the integration eliminates the need to toggle between platforms and provides a consolidated interface to compare truckload market data. This

“

Integrating Greenscreens.ai into our C4 platform emphasizes our commitment to delivering value. Offering a unified view of pricing data empowers brokers for informed decisions in a dynamic market.”

Russ Jones, CEO and Co-Founder at Cargo Chief

introduces an additional layer of confidence with market rate intelligence for joint customers, simplifying adaptation to market changes but also equips freight brokers with the tools necessary to cultivate and safeguard margins for increased business success.

"The integration of Greenscreens.ai pricing into our C4 platform emphasizes our commitment to delivering value to our users," said Russ Jones, CEO and Co-Founder at Cargo Chief. "By providing a unified view of pricing data, we empower freight brokers to make better-informed decisions and stay ahead in an ever-evolving market."

"We strive to simplify our customers' lives," said Matthew

Silver, Vice President of Strategic Partnerships. "Giving our mutual clients access to our software from either platform helps achieve our goals to simplify and enhance our customers' daily operations."
