

Renowned Technologist and Author Riko Radojcic Unveils High-Stakes Technothriller, "FA Confidential"

Unlock the Secrets of Silicon Fab Sabotage in Riko Radojcic's "FA Confidential": A High-Octane Ride into the Heart of Global Intrigue and Technology Espionage

UNITED STATES, December 20, 2023

/EINPresswire.com/ -- Dive into the heart of high-tech business and international intrigue with [Riko Radojcic](#)'s latest hard-science technothriller, "[FA Confidential](#)." Blurring the lines between fiction and reality, this page-turner promises a gripping narrative akin to the works of Clancy, weaving together historical fiction, alternate reality, and sci-fi.

"FA Confidential" takes readers on a suspenseful journey through the real-world intricacies of high-tech business and global espionage. Cedric Dyson, a Failure Analyses (FA) engineer, finds himself at the center of a technological mystery. Investigating why chips from a state-of-the-art factory aren't functioning as intended, Dyson unravels a shocking truth: that his facility has been sabotaged. As the stakes escalate, and with military options on the table, the story hurtles toward the brink of World War III.

Riko Radojcic, a man blessed with a diverse and fulfilling life, shares his unique perspective through "FA Confidential." Born in post-war Yugoslavia, Radojcic's life experiences span continents, from Asia and Africa to the United Kingdom and the United States. With a BSc and PhD in Electronic Engineering and Solid-State Physics, Radojcic enjoyed a successful career in the semiconductor industry before transitioning to writing. His previous works include "Between the Titans," "Between the Dragons," and "Start Up," each offering a distinctive blend of storytelling and technical insight.

- "FA Confidential" (Open Books, 2023) <https://open-bks.com/library/moderns/fa-confidential/about-book.html>

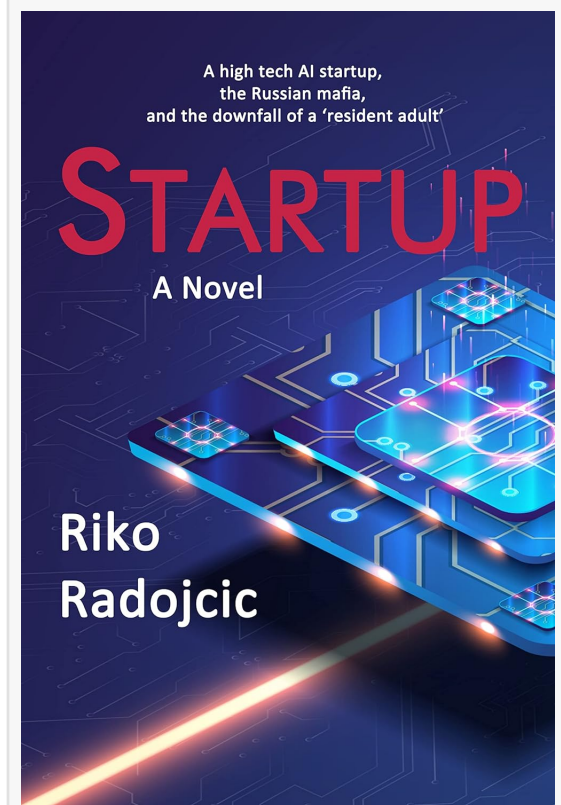

Radojcic, now a retired technologist, discovered his love for writing and aims to bring an appreciation of semiconductor technology to non-expert readers. "FA Confidential" emerges as a thrilling blend of current world affairs and chip technology, providing readers with an entertaining yet enlightening experience.

Primary Message: "FA Confidential" not only delivers a gripping thriller but also serves as a gateway to understanding complex world affairs and the fascinating realm of chip technology. Radojcic guarantees that readers, after enjoying the book, will find newspaper headlines and techno-babble about Si chips more comprehensible.

"FA Confidential" is now available at major online bookstores and can be purchased through the publishers website.
