The organic tea market comprises sales of organic tea products. The market consists of revenue generated by establishments manufacturing organic tea products. Organic tea is a very popular beverage prepared using buds and boiled leaves obtained from Camellia Sinensis. It is free of herbicides, pesticides, and synthetic fertilizers and has antioxidant properties.

The main types of organic tea are green tea, black tea, white tea, oolong tea, herbal tea, and others. Green tea is a type of tea that is made from unoxidized leaves and is one of the least processed types of tea. The various products are paper pouches, cans, cartons, tea bags, and others, and the forms of organic tea are dried leaves, liquid, powder, and others. The distribution channels are hypermarkets and supermarkets, convenience stores, online, specialty stores, and others.
