FREDERICKSBURG, TEXAS, UNITED STATES, January 10, 2024

/EINPresswire.com/ -- The [National Terrazzo & Mosaic](#)

[Association](#) (NTMA) has unveiled 16 Honor Award winners for 2024. These awards recognize outstanding achievements by NTMA member contractors and emphasize their role as the sole qualified resource for terrazzo installations that meet industry standards. Industry veterans and design professionals judge the entries.

“

As the association embarks on its second century, these winning projects showcase the terrazzo industry's continual advancement with fresh perspectives and innovative craftsmanship.”

Leslie Carrio, DePaoli Mosaic Company / NTMA Board President

One of the winning projects will be announced as the recipient of the NTMA 2024 Job of the Year, the industry's highest honor, and awards presented to all winners at the association's 101st annual convention on April 17, 2024, during the President's Honor Award Banquet.

The NTMA, a 148-member, full-service nonprofit trade association headquartered in Fredericksburg, Texas, celebrated its centennial in 2023. The NTMA establishes national standards for all terrazzo systems and applications. Its mission is to promote quality terrazzo craftsmanship and creativity while supporting its members in their trade and service to the construction industry.

The NTMA's full range of free services extends to architects, interior designers, artists, general contractors, maintenance professionals, and property owners. From helping the design team write specifications to providing technical assistance at any project stage, the NTMA's goal is to help ensure quality terrazzo installations.

THE GODFREY HOTEL in Detroit is one of 16 terrazzo installations named this year's winners by the National Terrazzo & Mosaic Association.

THE NEW TOPS DINER in Newark, New Jersey, is a finalist in the 2024 terrazzo Job of the Year competition.

Terrazzo originated in 15th-century Italy, a direct descendant of the mosaic artistry of ancient Rome. One of the world's original sustainable building systems, terrazzo evolved through the resourcefulness of Venetian marble workers as they discovered a creative way to reuse discarded stone chips. Terrazzo artisans still pour terrazzo by hand on the construction site, with options for precast and waterjet-cut elements. Stone, recycled glass, or other aggregates, often sourced locally, are embedded in a cement or epoxy base and polished to reveal the chips. Terrazzo combines design flexibility with ease of maintenance and durability to last the life of the building.
