Action camera refers to a digital camera intended for recording immersive action photos that are typically mounted to helmets, bike or motorbike handlebars, the chest, or a tripod. The action camera has a wider lens and is smaller, more durable, and waterproof than other types of cameras. Numerous athletes, sports fans, and hikers use it extensively in outdoor activities and sports.

The action camera market consists of sales of action cameras by entities (organizations, sole traders, and partnerships) that refer to a digital camera designed for capturing immersive action shots usually fixed to helmets, handlebars of a bike or motorcycle, chest, or tripod to record. The action camera is compact in size, rugged, and waterproof with a wider lens to get more width while recording or capturing. It is widely used in outdoor sports and adventure by many sports enthusiasts, athletes, and hikers.
