<u>implants</u>, designed for patients with bone loss or who are ineligible for invasive bone grafting procedures. They offer numerous advantages, such as reduced healing time, fewer dental visits, and the potential for same-day procedures.

□□□□ □□□□ □□□□ - In most cases, the mini dental implant procedure is around half the cost of a traditional implant case, saving you money.

00000000 0000 00000000 -

Implants preserve your natural bone structure so you can maintain the shape of your face and avoid continued bone loss where teeth are missing.

are less invasive, and don't require the lengthy healing time of traditional implants, they can typically be loaded with crowns, bridges and dentures immediately.

Because mini implants are much smaller, placing them is a less invasive procedure—requiring less healing time and discomfort, and fewer visits.

□□ □□□□ □□□□□ - Mini implants are made out of titanium—the same type of material that is used on artificial joints, and they are not subject to decay or periodontal disease.

Understanding the challenges of distance, Dr. Shatkin also extends his services to those outside the area via free Zoom or FaceTime consultations, ensuring everyone has the opportunity to explore their options for a better smile.

"We believe in transforming lives through better dental care. Our mini dental implants are not only more affordable but also less invasive, making them an ideal solution for

Missing Teeth? Loose Dentures? We Can Help!

many patients," said Dr. Shatkin. "We're here to help you rediscover your smile, no matter where you are."

Patients are encouraged to take advantage of this limited-time offer to consult with the leading

expert in mini dental implants. Dr. Shatkin's dedication to excellence and patient care is evident in every aspect of his practice.
