

Headlands Research and Sahara Behavioral Health Partner to Provide Positive Mental Health Outcomes for Patients

The collaboration improves access to clinical research and investigational treatments while supporting participant recruitment efforts in Arizona.

SAN FRANCISCO, CA, USA, January 4, 2024 /EINPresswire.com/ -- [Headlands Research](#), a leading [multinational network of clinical trial sites](#), today

“

Partnering with Sahara Behavioral Health draws on our extensive experience in psychiatric trials and emphasizes our commitment to expanding clinical trial access”

Kyle Burtnett, CEO of Headlands Research

announced a partnership with Sahara Behavioral Health to improve the accessibility of clinical research and investigational therapies for those seeking psychiatric and addiction care in Arizona.

“Partnering with Sahara Behavioral Health draws on our extensive experience in psychiatric trials and emphasizes our commitment to expanding clinical trial access,” said Kyle Burtnett, CEO of Headlands Research. “This relationship is a win for all involved — for sponsors looking to conduct research in Arizona, for providers searching for

more treatment options, and most importantly, for local people seeking positive mental health outcomes.”

Headlands Research specializes in large-volume recruitment and retention of diverse, inclusive, and specialty populations while delivering the highest quality data. The network relies on expert clinical researchers and renowned key opinion leaders who prioritize the participant experience. Through community and physician partnerships, a broad range of therapeutic expertise, and a commitment to advancing innovative medical therapies, Headlands Research aims to make clinical research accessible to all individuals.

Sahara Behavioral Health offers a diverse range of services designed to treat children, adolescents, adults, and seniors with conditions such as depression, anxiety, substance abuse, ADHD, PTSD, and more. With several locations across Arizona, Sahara Behavioral Health prioritizes compassionate, accessible, and culturally inclusive care.

“At Sahara Behavioral Health, we are committed to our patients, profession, and community; commitments we believe align with the values and mission of Headlands Research,” said Dr. Satinder Purewal, Medical Director of Psychiatry and Founder of Sahara Behavioral Health. “Together, our organizations create many opportunities for improved outcomes for patients seeking mental health and addiction treatment.”

About Sahara Behavioral Health

At Sahara Behavioral Health, our mission is to improve lives by providing compassionate, effective mental health and addiction services to our community. Our treatment approaches are individualized to each patient’s unique needs. We serve patients through all stages of life, including children, adolescents, adults, and seniors. We take pride in offering our patients the highest standard of care with a comprehensive approach that includes assessment and diagnosis, medication management, and treatment services. Sahara Behavioral Health offers in-person or tele-video appointments and has six locations across Arizona in Anthem, Chandler, Glendale, Peoria, Surprise, and Tucson. In addition to medication management, we provide in-office treatments, including Esketamine, Ketamine, and transcranial magnetic stimulation (TMS).
