

Planet TV Studios Unveils Documentary Series "New Frontiers" Spotlights TissueGnostics' Breakthroughs in Healthcare

Airing Soon on Bloomberg TV: Exploring Advanced Precision Medicine with Planet TV Studios, a Premier Producer of Innovative Television

LOS ANGELES, CALIFORNIA, UNITED STATES, January 3, 2024

/EINPresswire.com/ -- Planet TV Studios, a leading producer of groundbreaking television series, proudly announces the release of its latest documentary series, "New Frontiers," shining a spotlight on the innovative achievements of

TissueGnostics. This compelling documentary delves into the revolutionary strides made by TissueGnostics, a global leader in [microscope automation](#), image analysis, cell analysis, [tissue analysis](#) and automated digital cell morphology, and more.

"New Frontiers" is a thought-provoking series meticulously crafted to explore trailblazing organizations that are shaping the future of healthcare globally. The documentary episodes will be airing early January 2024 on national television, Bloomberg TV, and available on-demand through various platforms, including Amazon, Google Play, Roku, and more.

Planet TV Studios is delighted to have Gina Grad back as their host. Gina is an accomplished author, podcast host, and radio personality based in Los Angeles, California. She previously served as the co-host and news anchor of the Adam Carolla Show, a podcast that held the Guinness World Record for the most downloaded episodes. Gina has also anchored on KFI 640 AM and hosted mornings on 100.3 FM. In addition to her broadcasting career, she is the author of "My Extra Mom," a children's book designed to assist kids and stepparents in navigating the challenges of [blended families](#).

"Seeing is believing!" - This age-old adage holds true in countless aspects of human existence, yet in the realm of scientific data analysis, visual observation falls short. TissueGnostics addresses

TissueGnostics
