Recent Developments:

October 18, 2023: IBM (NYSE: IBM) today announced the signing of three memoranda of understanding (MoUs) with three entities engaged with the Ministry of Electronics and Information Technology (MeitY) to advance and accelerate innovation in AI, semiconductor and quantum technology for India. This body of work will aim to accelerate India's comprehensive national strategy for AI, strengthen efforts to be self-reliant in semiconductors and advance its National Quantum Mission.

December 12, 2023: Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO), a leading technology services and consulting company, today announced that it has entered into a new agreement with RSA, one of the world's leading general insurance companies. Wipro will help accelerate RSA's migration to the cloud and build a compliant, secure, and scalable IT infrastructure. The three-year engagement builds on Wipro and RSA's existing relationship, which began in 2016. This contract will accompany RSA on its journey over the next couple of years to modernize its infrastructure and the use of Cloud technology. It will also support the delivery of a range of operational services to enable a connected business environment and support RSA's growth objectives. The resulting state-of-the-art infrastructure will optimize service delivery and enhance RSA's customer and employee experience through automation.

Regional Outlook of Global IT Outsourcing Industry

Asia Pacific accounted for the largest market in the IT Outsourcing market. It accounted for 36% of the worldwide market value. In the APAC region, nations like Malaysia, Vietnam, China, the Philippines, India, and the Philippines have become popular outsourcing locations. Software development, customer support, and business process outsourcing (BPO) are among the IT services in which India, in particular, has been a major player. Cost competitiveness has been one of the main forces behind outsourcing to the Asia-Pacific area. Businesses trying to cut operating costs may find APAC to be an appealing alternative because labor costs there are typically lower than in Western nations. Strong technological ecosystems and a large pool of highly qualified IT workers can be found in nations like China and India. These nations have long been leaders in the provision of IT consulting, software development, and other services pertaining to technology. English proficiency is available in a few APAC nations, including the Philippines.
