The event is designed to evaluate individuals' water competency and foster a culture of safety from an early age.

“

Learning water safety and swimming are not only essential life skills but also significant investments in your well-being, safety, and overall quality of life.”

*Lenny Krayzelburg*

SwimRight Academy's primary mission is to empower children by imparting crucial water safety skills from the beginning. Early exposure to swimming and water safety education is pivotal in preventing accidents and ensuring a lifetime of aquatic enjoyment.

Throughout the Open House Week, participants of all ages will have the unique opportunity to be assessed by our experienced instructors. Complimentary water competency tests will enable individuals and their children to showcase their skills and understanding of basic water safety practices. Personalized recommendations for improvement based on these evaluations will be provided by our instructors.

Recent statistics highlight drowning as a leading cause of accidental deaths, particularly among young children. Participation in our Open House Week will offer valuable insights into water competency levels and guidance to enhance skills and knowledge within a safe and supportive environment.

Founder [Lenny Krayzelburg](#) emphasizes, "We are excited to welcome the community to our Open House Week. Water safety and early swim education are paramount, and we are committed to making a positive impact on the lives of children and adults alike. *"We have been swimming there for about a year. My kids really enjoy the levels and are motivated by the stickers and getting to ring the bell when they move up a level, they have made great progress. The instructors are fun, outgoing and patient. We love Yesenia and Simeon but everyone we have had is great! I recently had a concern, and when management responded they went above and beyond and provided good customer service."*
