There will be no interruption to current IBMC College students' education or training programs. Wayne Zellner, Vice President of Operations assures students, "The most important thing students need to know about this is there will be no change in what our students enrolled for, and the only impact they should feel will be continued improvements across all campuses moving forward."

IntelliTec students will benefit from this change too, as it brings an expansion of services and program offerings. David Vice, Chief Executive Officer of DVMD LLC, emphasizes this change will mean increased benefits to both the students and community. Vice said, "This will mean expanded programs, blended learning environments, the latest tools and technology, and strong financial resources to ensure our students achieve the outcomes they expect."
