

# Orchestry Software Unveils Intelligent Recommendations Engine LIVE on January 24th

---

VANCOUVER, BC, CANADA, January 9, 2024 /EINPresswire.com/ -- Microsoft 365 administrators are tired of grappling with the challenges of managing, governing, and securing their environments. Orchestry Software Inc has created the solution with their new [Recommendations](#) engine. Recommendations removes the guesswork and provides admins with insights into exactly what is needed to be done in their M365 environment, how and when, and without unnecessary charts and graphs. On January 24th, 2024, they will unveil this groundbreaking functionality during a [live Microsoft Teams Webinar](#).

## The Solution Has Arrived

Launching soon as an integral part of the Orchestry platform, and the first module in the new data-driven Signals experience, the Recommendations engine is designed to become the nexus for suggested actions and recommendations for your Microsoft 365 environment. It offers immediate insights into the health of the M365 environment with a particular focus on management, governance, adoption, and security.□□

While other tools provide tables and graphs for admins to decipher, Orchestry Recommendations is a unified solution that eliminates guesswork. By comprehensively analyzing historical data it provides predictive insight and instructions on what needs to be done, how to do it, and when to take action, all laid out in a step-by-step format. This approach allows Admins to bypass irrelevant noise thanks to adaptive triggers, that leverage both practical expertise and artificial intelligence, providing a tailored experience for each unique environment.

## [Why Attend?](#)

Get an in-depth look at this revolutionary functionality and discover how to master M365 management without drowning in data.

Attendees will get a sneak peek and hands-on experience with the new functionality and can access a FREE 28-day trial of the platform

## Speakers:

Michal Pisarek, CEO & Janitor, Orchestry

Michal Pisarek, a seven-time Microsoft MVP and former Co-Founder of Dynamic Owl Consulting and BONZAI Intranet, brings a wealth of product, leadership, and user experience expertise to Orchestry. He has worked with Fortune 500 companies to maximize efficiency in their Office 365 Investments.
