Generated pictures

Generated pictures example

The block shows a comparison between original smartphone photos and AI-generated images. The 'Original pictures' section shows four photos of a light green sweater and light blue jeans from different angles. The 'Generated pictures' section shows three AI-generated images of the same outfit, featuring different models in various settings (e.g., a woman standing, a woman sitting on a chair, a woman sitting on a bench).

Want to upgrade the quality of EC look images to a certain extent
Want to create new creatives before the season changes
Want to test advertisements while changing visuals as well as text

For such apparel brands, this service can deliver high-quality brand visuals in as little as one week, significantly reducing time and cost.

Seamless Process to Craft Bespoke Fashion Imagery with 'MagicModel by woww.ai'

Initiate your journey to distinct brand creatives by simply uploading photographs of clothing items. The process begins with an initial consultation to understand the specific imagery goals. Following this, the upload of apparel photos enables the creation of high-quality model photos in as short a timeframe as one week.

Capable of replicating a variety of requests including race, background, and poses for photo captions.

Ensuring Excellence: Quality Assurance by Expert Photographers

Each image crafted undergoes a rigorous quality check by seasoned professional photographers, guaranteeing only top-tier results are delivered. Tailored retouching services are available to fine-tune color tones and atmosphere, meeting individual aesthetic preferences.

Broad Spectrum Customization: From Pose to Background

The service offers unparalleled customization options. Clients can specify their requirements, including poses, backgrounds, racial representation, and facial expressions. The flexibility extends to fulfilling specific requests, such as replicating a desired pose or expression from an existing photograph.
