

Radix to launch a new version of its Android TV Manager at CES 2024

Radix, a leading provider of cutting-edge device management solutions will exhibit at CES 2024 and launch a new version of its Android TV Manager.

TEL-AVIV, ISRAEL, January 8, 2024 /EINPresswire.com/ -- [Radix](#), a leading provider of cutting-edge device management solutions will exhibit at CES (Eureka Park, Jan 9-12 2024), showcasing its enterprise device management solutions, and launching a new version of its [Android TV Manager](#), a tailor-made solution for telcos, operators and service providers.

radix android tv device dashboard

Available as a stand-alone cloud-based product or as part of Radix' end to end cloud-based device management platform (MDM), known as [VISO](#), the solution is OS and device agnostic, but considered Android first, letting telcos, operators and service providers stay on top of their Android TV device fleet (including AOSP and Google TV), wherever their devices and customers are and whatever the use-case may be.

“

The Radix Android TV Manager was built bottom-up to manage Android-based TV devices, making it the most robust solution for Android TV device management.”

Michael Shoham, Radix CEO

Michael Shoham, Radix CEO, said: "With telcos, operators and service providers offering a wide range of connected services and leasing more Android-based devices than ever before, a centralized cloud-based device management

solution became a vital need to streamline operations: remote control, assist, manage, maintain, perform OTA update, collect insights, receive alerts, configure, track and lock devices via a single interface making sure they are always ready and optimized.

The Radix Android TV Manager was built bottom-up to manage Android-based TV devices, making it the most robust solution for Android TV device management, including app management, device configuration and settings management, remote support, monitoring &

analysis (telemetry), OTA firmware management and much more!

Key Benefits:

- *Reduce agent time spent on support calls using remote screen control
 - *Low-level device management - from OTA firmware management to ad-hoc support
 - *Easily add new features, capabilities and modules
 - *Reduce onsite visits with remote software updates and proactive problem resolution
 - *Delegate permissions to different stakeholders to allow device management by role
 - *Reduce subscriptions abuse
 - *Fast time-to-market, the service can be deployed in less than a week
- And much more!"

All customers looking to manage their devices are welcome to visit us at Eureka Park Booth 61701.
