

My Speaking Score Continues to Innovate TOEFL Prep with AI

Empowering Global Learners: My Speaking Score integrates ChatGPT, fast feedback, and AI tools for superior TOEFL prep.

FLORENCE, ITALY, January 8, 2024 /EINPresswire.com/ -- [My Speaking Score](#), a leader in online language assessment, is proud to announce its latest advancements in TOEFL preparation technology. Leveraging the power of artificial intelligence (AI) with deeper integration of OpenAI's ChatGPT, the platform now offers unparalleled instant feedback, bolstering its integration with [SpeechRater](#) and [e-rater](#) and solidifying its position as the go-to resource for TOEFL test-takers worldwide.

Revolutionizing Language Learning

with ChatGPT: My Speaking Score has integrated the advanced language understanding capabilities of ChatGPT to simulate real-life conversations and provide nuanced feedback. This integration allows users to engage in lifelike interactions, enhancing speaking skills and building confidence. ChatGPT's dynamic learning model adapts to individual users, offering personalized practice sessions and insights to maximize learning efficiency.

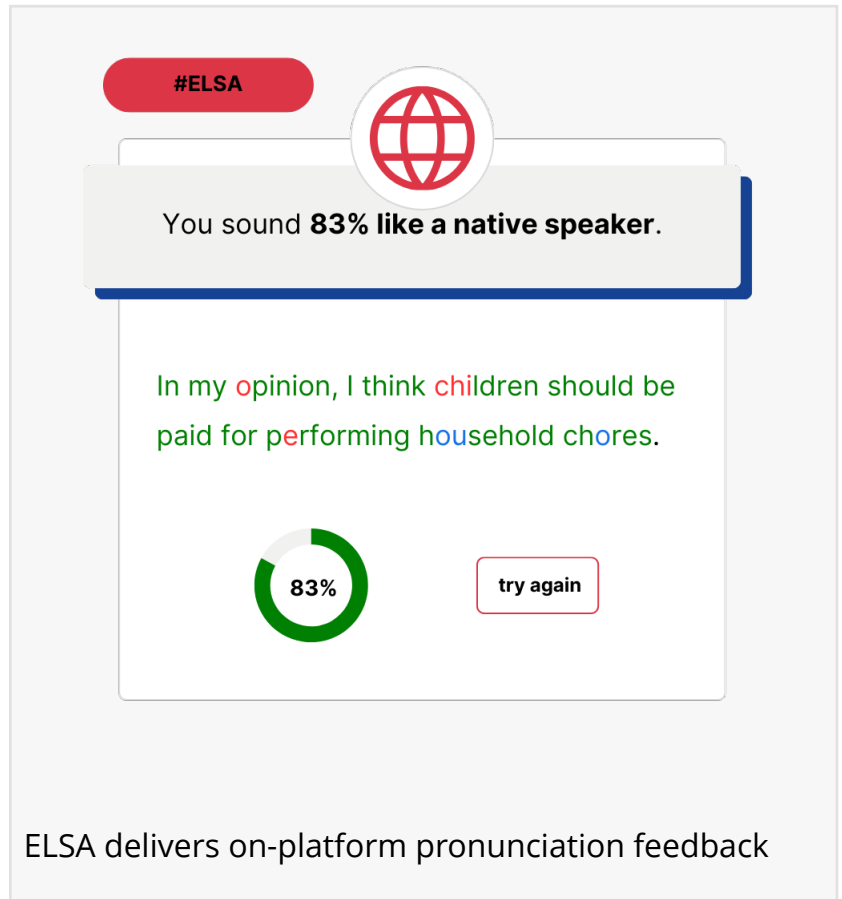

Revolutionizing TOEFL prep with AI tools, we set the global standard."

John Healy

Instant Feedback for Immediate Improvement: Recognizing the importance of timely feedback in language learning, My Speaking Score has streamlined its feedback system to

deliver instant, actionable insights. Users can now receive immediate evaluations on their speaking performances, including detailed analyses of pronunciation, fluency, and grammatical accuracy. This instant feedback loop enables learners to quickly identify areas for improvement

The screenshot shows the ELSA speaking feedback interface. At the top left, there is a red pill-shaped button with the text "#ELSA". To its right is a red globe icon. Below these, a grey box contains the text "You sound **83% like a native speaker.**". Underneath this, a white box displays the user's spoken sentence: "In my opinion, I think children should be paid for performing household chores." The words "opinion", "children", "paid", and "chores" are highlighted in green. Below the sentence is a green circular progress indicator showing 83% completion. To the right of the progress indicator is a red-outlined button labeled "try again". At the bottom of the screenshot, the text "ELSA delivers on-platform pronunciation feedback" is visible.

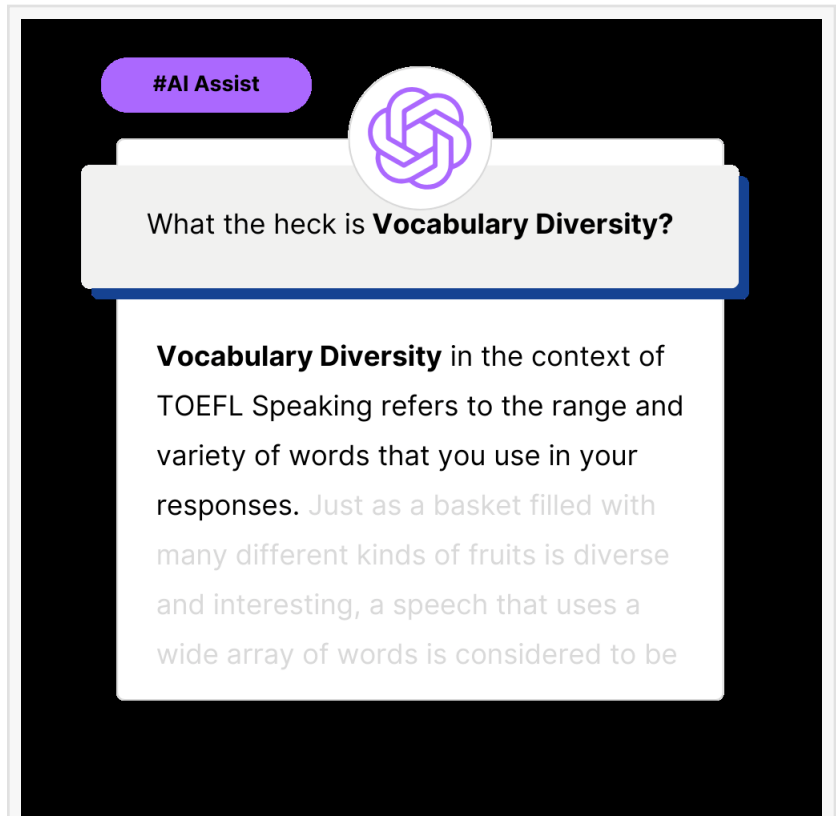

and track their progress over time.

Accuracy with E-Rater and SpeechRater: At the core of My Speaking Score's technology is ETS's e-rater and SpeechRater. These powerful tools provide automated scoring of speech samples, offering assessments that closely align with human raters. The AI-driven systems evaluate a wide range of linguistic features, ensuring a comprehensive and unbiased assessment of users' speaking abilities.

ELSA Partnership – The Edge in Pronunciation Training: In an exciting collaboration, My Speaking Score has partnered with ELSA, the leading pronunciation training app. This partnership brings advanced pronunciation analysis and corrective feedback to users, helping them refine their accent and intonation. ELSA's technology, combined with My Speaking Score's comprehensive TOEFL preparation, offers users an all-encompassing learning experience.

A Rapidly Expanding Global User Base: The effectiveness and innovation of My Speaking Score have not gone unnoticed. The platform has seen exponential growth in its user base, with learners from over 100 countries embracing its technology. This diverse community of users not only benefits from the platform's features but also contributes to the continuous improvement of the AI models through varied language inputs.

Commitment to Accessibility and User Experience: Understanding the diverse needs of its global

user base, My Speaking Score remains committed to accessibility and user experience. The platform's intuitive design ensures that learners of all backgrounds can easily navigate and utilize its features. Continuous updates and improvements are driven by user feedback, ensuring that the platform evolves to meet the changing needs of learners worldwide.

Innovative Features for Comprehensive Prep: Beyond speaking, My Speaking Score provides an all-in-one platform for TOEFL preparation. It includes writing evaluations, reading comprehension tools, and listening exercises, all powered by AI to offer a holistic learning experience. With these tools, users can prepare for all aspects of the TOEFL test, building the skills and confidence needed to succeed.

Expert Support and Resources: My Speaking Score understands that technology is best complemented by human expertise. The platform offers access to a wealth of resources, including practice tests, strategy guides, and tips from TOEFL experts. Users can also connect with experienced instructors for personalized coaching and advice, ensuring they have the support they need every step of the way.

Embracing the Future of Language Learning: As AI continues to evolve, My Speaking Score remains at the forefront, continually integrating the latest technologies to enhance its offerings. The platform is not just a tool for test preparation; it's a partner in the language learning journey, adapting and growing with users as they strive to reach their goals.

A Message from the Founder: "At My Speaking Score, we believe that language learning should be accessible, effective, and engaging," says the founder, John Healy. "With the integration of ChatGPT and other cutting-edge technologies, we're not just preparing users for the TOEFL test; we're equipping them with the skills needed for real-world communication. We're excited to see our platform's impact as we continue to innovate and expand our offerings."

Looking Ahead: As My Speaking Score continues to grow and innovate, it remains dedicated to its mission of providing high-quality, accessible language learning solutions. With plans for further technological advancements and expansions into new markets, My Speaking Score is poised to remain a leader in the online language assessment industry.
