

PROCAS Delivers Next Generation Government Contract Accounting Solution

New PROCAS Features Simplify the Complexities of Government Contract Accounting for Emerging Contractors and Established Enterprises.

COLUMBIA, MARYLAND, USA, January 9, 2024 /EINPresswire.com/ -- PROCAS, a leading provider of financial solutions for government contractors, today announced the next release of its scalable financial solution that blends user-friendly design, compliance-centered features and customer-focused innovation to simplify the complexities of government contract accounting.

One significant improvement is in automation and accuracy. PROCAS now directly connects with banks for transaction imports, which makes accounting tasks faster and more accurate.

"Our goal has always been to equip government contractors with a scalable, user-friendly system that simplifies government contracting," said Jim Wesloh, Founder and President of PROCAS. "These new features reinforce our commitment to customer-centric innovation. The direct bank import feature, in particular, minimizes manual effort, offering our users a seamless and efficient accounting experience."

Key New Features

- Bank Import Functionality: Transactions can be pulled directly from banks and recorded seamlessly, aiding in faster and more accurate accounting and bank reconciliations.
- Credit Card Import: Now offering direct connections with banks to import transactions for more efficient credit card reconciliations.
- Plaid Integration: Compatibility with over 12,000 financial institutions for effortless bank and

PROCAS blends user-friendly design, compliance-centered features and customer-focused innovation to simplify the complexities of government contracting.

Our goal is to equip government contractors with a scalable, user-friendly system and these new features reinforce our commitment to customer-centric innovation."
