The Eagles' expertise in strategic and operational management complements Child Care Biz Help's comprehensive services. These services, designed to assist churches in starting their own child care center, include market research, cost projections, floor plan design, assistance with childcare licensing, establishment of a core operations framework, leadership development, and an overall alignment with church missions. This expansion reaffirms the company's commitment to providing tailored, holistic solutions that support sustainable, nurturing environments for children and strengthen church communities.

"A child care center can be one of the most effective outreaches of a church and this partnership will allow for more children to be transformed by the Gospel," said Nelson Eagle.

"We're excited about the depth of knowledge and experience Nelson & Nancy bring, and we look forward to the positive impact this will have on the communities we serve," said Daniel Jens, Co-Founder of Child Care Biz Help.
