

# Homatics HomeClick 5.4.4: the world's first audio-visual system featuring Android TV OS and Dolby Atmos, tuned by THX

*Home Click 5.4.4 is the world's first audio-visual system featuring Android TV OS and Dolby Atmos, delivering immersive 5.4.4 panoramic surround sound.*

LASVEGAS, NEVADA, US, January 9, 2024 /EINPresswire.com/ -- Home Click 5.4.4 is the world's first audio-visual system featuring Android TV OS and featuring Dolby Atmos, delivering immersive 5.4.4 panoramic surround sound meticulously tuned by THX. Additionally, it offers personalized services and content recommendations through intelligent recommendation algorithms driven by AI assistants, big data, and edge computing technologies. The inclusion of millimeter Wave Radar technology ensures that you're always in the sweet spot for an unparalleled entertainment experience.

"HomeClick redefines smart home entertainment and will transform your Android TV into a plug- and-play Dolby smart home theater that will be expertly Tuned by THX, offering Pay-TV consumers universal compatibility and immersive audio-visual experience for every scenario and let you always be in the sweet spot!" —James Wen, co-founder, Homatics

Home Click 5.4.4 is the world's first audio-visual system featuring Android TV OS and featuring Dolby Atmos, delivering immersive 5.4.4 panoramic surround sound meticulously tuned by THX.

It features Sweet Spot auto-configuration powered by Millimeter Wave Radar. When the radar detects audience movement, its AI algorithm instantly delivers and surrounds the audience with immersive sound. Users can customize sound effects themselves, and the AI algorithm simulates

We are thrilled to work with Homatics for best-in-class immersive entertainment for the home. With HomeClick 5.4.4, consumers will be able to enjoy a remarkable entertainment experience!"

*Ashim Mathur, VP, Asia Pacific Marketing, Dolby*

corresponding sound effects when the video lacks them.

The millimeter wave radar detection technology utilizes the millimeter-wave frequency range of 24-60 GHz for high-precision measurements of distance, azimuth, spatial positioning, and the perception of subtle biological movements. This enables HomeClick 5.4.4 to be applied in more complex scenarios and allows for sound calibration. With a detection accuracy of up to  $\pm 5\text{cm}$ , distance resolution of 10cm, and angular accuracy of up to  $\pm 5^\circ$ , users can achieve the optimal immersive listening experience from any corner of the living room.

#### Key Features of HomeClick 5.4.4

- Plug-and-Play, secure 5.8 GHz wireless audio protocol
- Dolby Atmos immersive audio for multi-dimensional sound and Dolby Vision for visuals with incredible contrast, color, and detail.
- Tuned by THX for balanced, well-calibrated audio at all volumes
- Android TV for providing premium 4K content and enabling voice control
- Features Sweet Spot auto-configuration powered by Millimeter Wave Radar
- Eco-Friendly, Ambient Light Synchronization and Minimalist Design Blends into Indoor Environment

Homatics HomeClick5.4.4 will be showcased at CES2024 and for further information about Homatics, please visit <https://www.homatics.com/>
