Pornography is the third most common form of sex trafficking according to reports from the U.S. National Human Trafficking hotline. To this end, Freespoke blocks explicit pornography from its search results. This protects children and users of the search engine, but also reinforces Freespoke’s commitment to do everything it can to fight human trafficking. Additionally, Freespoke has announced its commitment to partner with a different anti-human trafficking organization each month throughout 2024. As part of this initiative, new users signing up for Freespoke [Premium](#) (\$30/year) will contribute to the cause by donating 30% of each new Premium subscription to an anti-human trafficking organization each month.

For January, Freespoke proudly announces its partnership with the [Bay Area Anti-Trafficking Coalition](#) (BAATC), a non-profit organization dedicated to interrupting the business of human

trafficking. BAATC specializes in educating frontline personnel in hotels, airports, and various industries on identifying and halting human trafficking activities within their spheres of influence.

"Our collaboration with the Bay Area Anti-Trafficking Coalition is another step in our ongoing commitment to combat this heinous crime.
