

# SCHEER MEDICAL WELLNESS DEBUTS RELATIVELY NEW ENDOSCOPIC SLEEVE GASTROPLASTY (ESG) PROCEDURE FOR WEIGHT LOSS PATIENTS

*Procedure Offers Particular Advantages To Those Struggling With Obesity And Other Weight Challenges*

NY, NY, UNITED STATES, January 16, 2024 /EINPresswire.com/ -- [Scheer Medical Wellness](#), a cutting-edge practice which provides a comprehensive range of high-quality services, announced that their New York Practice will now offer Endoscopic Sleeve Gastroplasty (ESG) - a relatively new weight loss procedure that has numerous advantages over other weight loss surgeries. The procedure is particularly effective for individuals struggling with obesity who have not had success with conventional weight loss methods.

According to Dr. Alexander Scheer, founder of Scheer Medical Wellness, "What distinguishes this procedure is that Endoscopic Sleeve Gastroplasty (ESG) is minimally invasive and is conducted endoscopically through the mouth. The procedure eliminates the need for external incisions, reducing the risk of complications and hastening recovery. ESG's reversible and adjustable nature offers flexibility for adjustments over time."

Medically, ESG yields significant benefits by promoting substantial weight loss, potentially alleviating obesity-related conditions like type 2 diabetes, high blood pressure, and heart disease. This procedure enhances the effectiveness of lifestyle changes, encouraging healthier eating habits.

From a holistic standpoint, successful ESG, coupled with lifestyle modifications, can reduce the burden of chronic diseases, improve joint health, boost self-esteem, and positively impact mental well-being. At Scheer Medical Wellness, Dr. Lorenzo Ottaviano, a board-certified physician specializing in Endo-bariatric procedures, including ESG, plays a pivotal role. His expertise, commitment to individualized care, and comprehensive approach make ESG a transformative tool in the weight loss journey, potentially making it a life-changing benefit for those struggling with significant obesity.

## About Doctor Alexander Scheer

Dr. Alexandre Scheer, the founder of Scheer Medical Wellness, is a New York-based physician, with more than 20 years of expertise. He serves as the Medical Director (MD) of Scheer Medical
