[Avinash Tiwari](), Co-founder of Pcloudy, expressed his enthusiasm: "It's an exhilarating moment to align with Unison Consulting. Our partnership synergizes Pcloudy's sophisticated cloud-based testing platform, bolstered by our Singapore-based data center, with Unison's deep-seated expertise in the financial and insurance sectors, aiming to empower businesses to soar to new peaks in quality and efficiency. We're confident that this collaboration will greatly enhance our offerings for our clients, further strengthening our footprint in the Southeast Asian market."

This partnership marks a strategic endeavor to broaden market horizons, merging Unison Consulting's robust presence in Singapore, Malaysia, and India with Pcloudy's extensive global reach. It transcends mere market expansion, focusing also on cultivating pioneering testing methodologies and exchanging industry best practices to propel digital testing forward.

Mr. Palaniappan Chidambaram, Managing Director of Unison Consulting, remarks on this joint venture: "Aligning with Pcloudy signifies a major leap in enhancing digital experiences for our clients. Our combined expertise will enable us to provide top-tier digital assurance services, focusing on enhancing test coverage, reducing time-to-market, and elevating the end-user experience. We eagerly anticipate a rewarding collaboration with Pcloudy, aiming to set new

industry standards."

Together, Pcloudy and Unison Consulting are dedicated to revolutionizing the digital testing and quality assurance landscape. Their combined efforts are set to enable more businesses globally to deliver exceptional value and superior experiences to their customers.
